

SHAYAN SHEIKH

WordPress & Shopify Developer | Shopify Plus & Liquid Expert

Email: shayanshaikh530@gmail.com | Phone: +92 320 2950035 | Portfolio: shayanshaikh.netlify.app

PROFESSIONAL SUMMARY

WordPress & Shopify Developer with 3+ years of professional experience building, customizing, and optimizing e-commerce websites and storefronts. Specialized in custom Shopify Liquid development, WooCommerce store builds, and BigCommerce Stencil customization, with proven expertise in Core Web Vitals speed optimization, technical SEO, and custom theme/plugin development. Skilled at bridging creative design with strong technical performance, having delivered 150+ e-commerce and web development projects for clients across the US, UK, and Pakistan.

CORE SKILLS

CMS & E-commerce: WordPress, Elementor, WooCommerce, Shopify, Shopify Liquid, Shopify Plus, BigCommerce Stencil

Development: Custom theme & plugin development, third-party API/app integration, PHP, HTML, CSS, JavaScript

Performance & SEO: Core Web Vitals optimization, page speed audits, technical SEO, structured data & schema markup

Store Operations: Store setup & migration, payment gateway integration, shipping & tax configuration, maintenance & support

PROFESSIONAL EXPERIENCE

WordPress & Shopify Developer — Richmond Tech Group

April 2024 – Present

- Develop and customize WordPress websites using Elementor and other leading page builders for a range of clients
- Build and manage BigCommerce Stencil stores end-to-end, including product catalog setup and checkout configuration
- Customize Shopify Liquid themes to match client branding, UX requirements, and conversion-focused design
- Research and integrate third-party Shopify apps to extend store functionality (reviews, upsells, subscriptions)
- Set up complete Shopify stores from scratch, including product catalogs, payment gateways, and shipping rules
- Diagnose and resolve performance bottlenecks to improve Core Web Vitals and Google PageSpeed scores

WordPress & Shopify Developer — Prodigy Code

November 2023 – March 2024

- Built fully responsive WordPress sites for small and mid-sized businesses using Elementor and custom themes
- Configured WooCommerce and Shopify stores end-to-end, including payment gateways and shipping setup
- Managed direct client communication — requirement gathering, revisions, and delivery — across multiple projects

SERVICES OFFERED

Store Setup & Migration • Theme Customization • Speed Optimization • Custom Apps & Plugins • SEO & Structured Data • Maintenance & Support
